

# DTM-9

SEVEN DAY PROGRAMMABLE  
ELECTRONIC TIMER

## Applications

### TRAFFIC CONTROL

The DTM-9 will keep your overhead doors, gates and parking barriers continuously open during rush hours. This will increase the comfort and save on entry and exit times for employees and customers.

It will also significantly reduce the number of cycles the gate, door operator or parking barrier is activated per day. This will lower the wear and tear on the operator, saving on maintenance costs. Lower daily use will also allow the use of a smaller operator and therefore lower the overall cost of the whole installation.

### MAGNETIC DOOR LOCKS

The DTM-9 will allow you to program the lock out times for your doors with magnetic locks and electric strikes.
